

# Farhan Alwahid

I'm an energetic and skilled individual seeking an internship as a front-end developer, mobile developer, or software engineer. As an assistant for the Mobile Programming course, I use Android Studio and Kotlin to teach students mobile app development. My achievement lies in effectively guiding students through complex programming concepts and project completion. I have a solid understanding of React.js, Tailwind CSS, APIs, and responsive web design. Currently, I'm building a visually appealing web platform using Next.js, Tailwind CSS, and an API for our campus organization. With a passion for learning and adapting to new technologies, I'm eager to contribute my expertise and enthusiasm to your team.

## Experience

### **Assistant lecturer of mobile programming** • Pertamina University

Feb 2023 - Jun 2023

- Passionate Mobile Programming Assistant Lecturer dedicated to student learning and development in mobile app development.
- Engaged students through interactive discussions, workshops, and personalized guidance.
- Enhanced understanding of key concepts and practical skills.
- Contributed to curriculum development, incorporating industry trends and hands-on projects.
- Provided constructive feedback to foster critical thinking and problem-solving abilities.
- Committed to inspiring and empowering the next generation of mobile app developers.

### **Head of Project Management** • Computer Science Student Association - Pertamina University

Jan 2023 - Present

- Built a dynamic website for a computer science association using React.js, Next.js, Tailwind CSS, and API integration.
- Developed a user-friendly interface with seamless navigation.
- Implemented responsive design for optimal viewing on different devices.
- Utilized APIs for real-time updates and data integration.
- Collaborated with stakeholders to align the website with their vision and requirements.
- Ensured adherence to industry best practices and standards.
- Created an engaging online platform for members to connect, access resources, and stay updated.
- Demonstrated proficiency in React.js, Tailwind CSS, and API integration.

## Student Intern • PT Widigital Tri Buana

Sep 2018 - Feb 2019

- Strong background in client support, query generation, and collaboration.
- Skilled at meeting client requirements through active engagement and teamwork.
- Proficient in generating and structuring queries for educational and assessment purposes.
- Experienced at overseeing colleagues' work and providing assistance.
- Proven ability to prepare comprehensive reports on activities and achievements.
- Ready to contribute and excel in a dynamic work environment.

## Education

---

**Pertamina University**

**Computer Science**

2020 - 2024

## Skills

---

- React.js
- Next.js
- Tailwind CSS
- JavaScript
- Kotlin
- Android Studio
- Application Programming Interface (API)
- Node.js
- Git
- Critical Thinking
- Research

## Languages

---

- Indonesia - Native
- English - Intermediate
